

## Tacky art

So you thought that the making of paper clip people and Blu-Tack fantasias was just desk-bound slacking? Artist Alex Pittendrigh has created 16 sculptural reliefs out of Blu Tack and White Tack, inspired by what he saw when he worked as a city courier. Pittendrigh's works have been commissioned by ACCA@ Mirka, a collaboration between the Australian Centre for Contemporary Art in Melbourne and Tolarno's restaurant in St Kilda. The works will be on show at Tolarno's from March 4 to May 31.
