

children's school holiday art programs

A magical experience awaits you at ACCA these School Holidays. **NEW04**

(Mar 24 - May 16) is an exhibition filled with magic, myths and mysteries to inspire and excite imaginative young minds.

THE MAGIC FOREST, MYSTERY AND MYTHS @ ACCA

Join experienced artists and educators **Iwona Janczewski** and **Kirsten Rowbottom** and explore **NEW04** at ACCA.

- > **Discover** the magic forest that has sprung up in the gallery
- > **Hear** about myths and legends from faraway lands
- > **Experiment** with a range of artists' materials and new techniques including action painting and basic stop animation

Both programs will introduce children to contemporary art, artists and ideas through a guided tour and discussion of the NEW04 exhibition, followed by a creative art-making workshop.

Iwona and Kirsten have extensive experience working with children in a range of settings including schools, galleries, holiday programs and artists' studios. They are fascinated by the openness of children's imaginations and encourage children to explore their creativity by realising their ideas visually, orally and through performance.
